INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners Western Mason County Water District, Kentucky Dover, Kentucky 41034

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Western Mason County Water District, Kentucky as of and for the year ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Western Mason County Water District, Kentucky, as of December 31, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2016, on our consideration of the Western Mason County Water District, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal

control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Western Mason County Water District, Kentucky's internal control over financial reporting and compliance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Western Mason County Water District (District) was incorporated as a public body in 1958 under Chapter 74 of Kentucky Revised Statutes. The Kentucky Public Service Commission presently regulates the District.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant policies.

The Reporting Entity

The District, for financial purposes, includes all of the funds relevant to the operations of the District. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the Western Mason County Water District.

The financial statements of the District would include those of separately administered organizations that are controlled by or dependent on the District. Control or dependence is determined on the basis of financial interdependency, selection of government authority, designation of management, ability to significantly influence operations, accountability of fiscal matters, scope of public service and financing relations.

Based on the foregoing criteria there are no other organizations included in these financial statements.

The District, presented as an enterprise fund, does not apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or after November 30, 1989.

Enterprise Funds

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprise where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The accounting and financial reporting treatment applied to the District is determined by its measurement focus. The financial statements of the District are prepared using the economic resources measurement focus for the proprietary fund financial statements. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. With the measurement focus, all assets and all liabilities associated with the operations are included on the statement of net position.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The District maintains its accounting records on the accrual basis during the year. The District's financial statements include the operations of all entities for which the District exercises oversight responsibility. Oversight responsibility includes, but is not limited to financial interdependency, selection of the governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

Inventory

The cost of inventory is recorded at cost valued on the FIFO method.

Cash Flows

For purposes of the statement of cash flows, the District uses the direct method of reporting net cash flow from operating activities, and considers certificates of deposit with a maturity of six months or less to be cash equivalents.

Fixed Assets

Fixed assets purchased are capitalized at the time of purchase. Such assets re recorded at cost. Depreciation is applied on the straight-lint method over the estimated useful life of the asset, using rates determined by reference to Utility Standards Rates (NARUC). Asset lives range from 25 to 40 years for system lines and plant, 20 years for pumping equipment, 20 years for meters, and from 5 to 20 years for equipment, tools, and office furniture and equipment. The provisions for depreciation reflect those standard rates by asset class.

Power Costs

The cost of power purchases for pumping water is charged to expense as used.

Income Tax Status

The District is a political subdivision created under Kentucky Revised Statutes 74.012, and as such, is exempt from federal and state income taxes. Accordingly, the financial statement include no provision for income taxes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Unbilled Revenue

The District records revenue as billed to its customers on a monthly meter reading cycle. At the end of each year, water service that has been rendered from the latest date of each meter reading to the year-end is unbilled revenue receivable.

Net Position

Net position represents the difference between assets and liabilities in the statement of net assets. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 2: CUSTODIAL CREDIT RISK

Custodial credit risk is the risk that is the event of a bank failure, the District's deposits may not be returned to it. The District's cash and cash equivalents consist of checking and savings accounts with local banks. The District does not have a deposit policy for custodial credit risk. As of December 31, 2013 all of the District's deposits were covered by Federal Depository Insurance Corporation (FDIC) insurance.

NOTE 3: RETIREMENT PLAN

The District does not participate in County Employees Retirement System of Commonwealth Kentucky (CERS).

NOTE 4: CHANGE IN ACCOUNTING PRINCIPLE

The District implemented Governmental Accounting Standards Board (GASB) Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements and GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.

NOTE 5: RESERVES

The Western Mason County Water District is required to comply with the bond agreements of all bond issues as follows:

A. SINKING FUND

On or before the 20th day of each month and after the required payment to the Operation and Maintenance Fund Account, the District is required to set aside an amount into a special account known as the "Western Mason County Water District, Bond and Interest Sinking Fund". The amount to be set aside and paid into the Sinking Fund each month shall be sums equal to the following amounts:

- 1) A sum equal to one sixth (1/6) of the interest becoming due on the next succeeding interest due date, with respect to all outstanding Bond Issues.
- 2) A sum equal to one twelfth (1/12) of the principal of all such bonds maturing on the next succeeding January 1.

The required balance of the reserve at December 31, 2015 was \$139,905. The District had set aside \$ 60,018 at December 31, 2015 into a restricted account, resulting in the account being under-funded by \$78,637

B. DEPRECIATION FUND

The District is required to deposit \$947 each month into the Depreciation Fund account the proceeds from the sale of any equipment no longer usable or needed, fees or charges collected from potential customers to aid in the financing of the cost of extensions, additions and/or improvements to the project, plus the proceeds of any property damage insurance not immediately used to replace damaged or destroyed property. Monies in the Depreciation Fund shall be available and shall be withdrawn and used, upon appropriate certification to Rural Development, for the purpose of paying the cost of constructing replacements, extensions, additions and/or improvements to the project. The required balance at December 31, 2015 was \$ 130,400. District had set aside \$1,051 at December 31, 2015 into a restrict account, and therefore the account is under-funded by \$ 129,349.

NOTE 6: RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to and destructive of assets; errors or omissions; injuries to employees; and natural disasters. The District carries commercial insurance coverage for the risks to the extent deemed prudent by District's management.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners Western Mason County Water District, Kentucky Dover, Kentucky 41034

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards, applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Western Mason County Water District as of and for the year ended December 31, 2015 and the related notes to the financial statements, which collectively comprise the Western Mason County Water District, Kentucky's basic financial statements and have issued our report thereon dated September 29, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Western Mason County Water District, Kentucky's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Western Mason County Water District, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the Western Mason County Water District, Kentucky's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Western Mason County Water District, Kentucky's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

WESTERN MASON COUNTY WATER DISTRICT SCHEDULE OF FINDINGS AND RESPONSES Year Ended December 31, 2015

2015-1 LACK OF SEGREGATION OF DUTIES

Condition: The District continues to have a lack of segregation of duties. The office

manager performs and manages all of the accounting transactions. While the work performed by the office manager is sufficient, there remains the overall

problem of lack of segregation of duties.

Criteria: Proper segregation of duties should be in place to ensure that no single individual

has complete control over an accounting function.

Cause: This is due to the small size of the District.

Effect: Since one employee had control over all accounting transactions and no other

compensating controls were in place, duties were not adequately segregated.

Recommendation: The Board of commissioners needs to provide more oversight.

Response; The Board will take steps to insure the separation of duties, where possible, is

maximized.

2015-2 BOND RESERVE/SINKING FUND REQUIREMENTS

Condition: Monthly deposits into the Depreciation and Sinking Funds were not made as

required throughout the year. Because of the failure to make monthly deposits,

the Depreciation and Sinking Funds were underfunded.

Recommendation: The District must resume funding both the sinking fund and depreciation

reserve on a monthly basis as required by bond covenants and no withdraws

should be made from the reserve account unless authorized.

Response: The District will make an effort to be in compliance with the bond covenants.
